MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT,
Montgomery, Nov. 15, 1876.

Mr. Speaker:

I am instructed by the Governor to communicate in the House of Representatives a message in writing with accompanying documents.

Respectfully,

IKE H. VINCENT,
Private Secretary.

The message is as follows:

MESSAGE FROM THE GOVERNOR.

Gentlemen of the Senate and House of Representatives of the State of Alabama:

The Constitution of this State makes it incumbent on the Governor to give the General Assembly "information of the state of the government and recommend to their consideration such measures as he may deem expedient." In the discharge of that duty, I now submit to you my first biennial message:

It is of the highest satisfaction to me to assure you that peace and quiet have reigned supreme over the entire State since the adjournment of the last General Assembly. No riot or disturbance, no effort or even threat to resist the laws, or to obstruct their full execution, has become known to the Executive. Our elections have been remarkable for the good order preserved. Every person entitled to vote under the law, enjoys that right without annoyance or hindrance, and I congratulate you, as well as your constituents, upon the universal determination that is manifested by the people to obey the laws, and submit to their faithful enforcement. I have not the remotest fear of trouble in their perfect execution, if there shall be no improper or mischievous interference by Federal authorities or officers, who seem to be earnestly engaged in arraying one class against the other, thereby engendering ill-blood

and strife in the State. The people, however, have the wisdom to understand their purpose, and the patriotism to avoid the disastrous consequences of their evil efforts.

Since 1874, measures of economy and reform have been inaugurated in the administration of the State Government, and while sufficient time has not elapsed to realize the full benefits that will accrue to the people from them, much has been already, and is now being realized. This is evidenced by the general improved condition of the country, and the restored confidence of the people. How marked the contrast between the period anterior to the triumph of the Democratic party, and the time during which the State has been controlled by its policy; then there was nothing but gloom and despondency, a general paralysis of all business and the industries of the State. Now behold the change! Industries revived; men pursue with cheerfulness and confidence the enterprises they regard as profitable and inviting. Our industries are showing unmistakable signs of returning prosperity, and but for the mistaken and ruinous financial policy of the present Federal Administration, would long before this time have blessed the people of Alabama.

Being the first members of the General Assembly elected under the present State Constitution, your coming together is attended with unusual interest. To you the people look, and properly look, for sound and wholesome laws. The duration of your session is limited by the terms of the Constitution to sixty days, beyond which time, in no event, can you extend it, and as the next Legislature will not convene until 1878, you may reasonably expect a laborious session. To avoid the injurious consequences of hasty legislation, it is advisable, and I suggest that you mature as soon as may be practicable such important measures of a general character as may require legislation at your hands during the present session, so that your action upon such measures may be more deliberate, and the certain enactment of such laws put beyond the hazard of failure by the confusion usually incident to an adjournment. By the adoption of such a course on your part, the Engrossing and Enrolling Clerks and Committees will have time to engross and enroll, and examine with care all bills that may become laws. Cases have sometimes occurred in which an error in the enrollment of a bill has inflicted serious damage upon the great interests of the State. These things need not, and

should not happen, due watchfulness and care will always prevent such misfortunes. The Governor will also have time to read and consider such bills as you may submit for his approval. It is quite unnecessary, however, for me to impress upon you these considerations. You who have left your homes and business at the call of your fellow-citizens, and have patriotically determined to make the sacrifices incident to such service, need not to be told of the necessity of such action, in your unselfish discharge of those great and responsible duties of legislators.

REPORTS OF AUDITOR AND TREASURER.

The reports of the Auditor and Treasurer for the fiscal year ending 30th September, 1876, exhibit in detail the operations of those departments of the State Government, and I invite your attention to them. The aggregate amount of disbursements in each report is doubtless correctly stated, but it must be noted and remembered that the statement of expenditures as shown by them does not correctly show the precise expenditures for the fiscal year named. The fiscal year referred to began on the 1st October, 1875, and these reports contain or cover the most of two months more than the fiscal year. Several items contained in them are contracts made or liabilities incurred before 1st October, 1875. Such as the expenses of the Constitutional Convention incurred in the previous year, but not paid until after 1st October, 1875, and so of salaries of all the State officers, and Judges of the Supreme Court, as well as the Judges of the other courts, feeding prisoners, and other claims for the months of August and September, 1875, not then paid for want of money in the Treasury, but were paid within the fiscal year ending September 30, 1876, and appear in those reports as expenditures of that year, when in truth they constitute a part of the expenditures of the preceding year. If these reports had contained a note explaining what I have stated above this part of my message would have been unnecessary.

The General Assembly at its late session appropriated money for current contingent expenses, and also a sum to pay contingent expenses of the past administration. That I might be able to present separate and distinct statements, showing the payments from each appropriation, in my approval of the accounts to be paid out of the contingent fund, I have in each case directed out of what fund

the payment should be made, but it seems that the Auditor has in some cases failed to issue the warrants as directed, and the result is confusion in those reports, making such items appear as an expenditure of the present administration, when in truth it is not. The State indebtedness, as set forth in the Auditor's report, is that which existed before the recent adjustment of the bonded indebtedness of the State. The present bonded debt is much changed and reduced. Its present condition, however, will be shown by a report of the Commissioners, which will be submitted at an early day of your present session.

REVENUE.

The revenue laws of the State require further revision and correction. It is exceedingly difficult to so perfect a system of revenue laws that will operate equally and justly on all of the people of the State.

In my message to the General Assembly of December, 1875, I said: "The tax upon property in this State cannot be increased beyond three-fourths of one per centum, and while that tax imposes heavy pecuniary burdens upon the people, yet they will submit to it without a murmur or complaint if they shall be made satisfied of two things:

"First, That such a tax is necessary, in good faith, to discharge the just obligations of the State and protect its honor.

"Second, That the burden of the tax be just and equal upon the property of the people."

The only mode by which perfection in a general law for purposes of revenue can be attained or even approached is to revise and correct its errors as they may be developed by a practical application of the law to the matters for which it was enacted. Only in that way can we see the wrongs and hardships of such laws.

Upon the subject of "Errors and Insolvencies," I beg to repeat what I said in my first message on that subject: "In the revision recommended by me, I invite you to look into the very large amount allowed tax collectors for 'errors and insolvencies.' That there may be 'errors' and sometimes, and in rare cases, insolvencies is reasonable, but in many cases the amounts allowed and credited to the collectors under these heads are very large, and I fear are allowed by the courts of county commissioners more as a

matter of form, because the tax collectors ask it, than because after proper and strict examination they find it to be right.

It is difficult to understand how property assessed at a fair value for taxation should not thereafter be worth the tax of three-fourths of one per centum of that assessed value. I know that property assessed for taxes may be destroyed by fire, death or other accidental causes, but in all such cases the evidence could and should be taken in writing, either upon the examination of the witness in open court or in some other way which may be considered more suitable by the General Assembly. This evil should be corrected.

I might apply with propriety much of the preceding paragraph to the action of the boards of equalization in the various counties in the State. There appears to be a want of attention by those boards to the vastly important duties devolved upon them.

By reference to their action in different sections of the State and in different counties in the same section, and indeed, in different localities in the same county, there is seemingly an inexcusable inequality in the assessed value of property. The members of those boards often appear to take but little interest in the discharge of their duty in equalizing the taxes, greatly to the loss and injury of the State and counties in their revenue, as well as to the discontent of the taxpayers, on account of the inequality of their taxes. I earnestly invite your attention to this branch of the revenue law, with the hope that a remedy may be applied that will cure the existing evils.

Equality between the tax payers in bearing the burdens of the State Government is a right each one may unquestionably claim, and if the State through the instrumentality of any of its departments, should fail to secure such rights, the people will and should complain. Our courts of county commissioners and equalization boards should by law be required to guard with greater care against the errors to which I have referred in this communication. Upon the subject of "errors" our officers can hardly make a mistake. An alleged error for which credit may be claimed by the collector is either one of fact, or of law, or of both. The commissioners can require the evidence to satisfy them if they doubt, and if the question be one of law, the law provides for its decision. "Insolvencies" should give no more trouble. All property is bound for its

taxes, and if the property is found it is very difficult to understand why it will not pay its own taxes—true it may die, or by some casualty, be destroyed, but if so, that could be easily ascertained by the commissioners and so reported to the Auditor.

In counties where the State tax does not exceed twelve thousand dollars, the law gives as a compensation to the tax assessor eight per cent. on the first thousand dollars, four per cent. on the next thousand dollars, and two per cent. on the remainder. The law also provides to pay the tax collector for any assessment he may make, upon which he collects the taxes, ten per cent. for the assessment and his usual per cent. for collecting it, to be paid by the State, so that the State loses eight per cent. upon all such assessments by the collector. It is the duty of the assessor to assess all of the property, and if the collector can do it, of course the assessor could do it, and if he fails to make full and complete assessments, I recommend that he be made responsible on his bond to pay to the State such increase of compensation as the State may have to pay to the collector, because of the failure of the assessor to discharge his duty fully in the assessment of the property.

The revenue law of 1876 is, in my judgment, defective in not requiring taxes to be paid by some specified time. As the law now stands there is no inducement held out or offered to the tax payer to pay his taxes at any particular time; nor is there any penalty for his not doing so. The result is that the tax payers, who have money, but can use it profitably otherwise, are in no haste to pay their taxes, notwithstanding they are due and the State may be in great need of the money. I think this provision of the law should be so changed as to induce early payments after the tax becomes due.

The abstracts of assessments returned by the assessor to the Auditor's office for the tax year of 1876, will disappoint the friends of the present revenue law. It was confidently believed that its yield of revenue to the State would exceed the yield under the act of 1868, by two or three hundred thousand dollars. Such will not be the fact unless there be large supplemental assessments. Up to your present meeting the abstracts from fifty-six counties show only \$36,393 91 over the act of 1868. Supplemental assessments may yet bring up the amount to meet those expectations, and I trust they may, but fear otherwise. Mobile county decreased as compared with last year by

the very large sum of \$14,892 92, Montgomery county by \$13,971 94, and Madison county by \$5,859 06. How or why this result I of course do not know. It must be that there is not so much property in those counties liable to taxation, or that the property has decreased in value or been listed wrong, or much of it not listed at all by the assessor. This great falling off in the receipts of revenue, or seeming falling off, makes it necessary, in my judgment, for you to re-examine the list of property taxed, with a view to the equalization of the taxes and so modifying the law, if need be, that its yield of revenue will be great enough to meet the just requirements of the State.

LANDS BOUGHT BY THE STATE AT TAX SALES.

I feel it my duty again respectfully to call your attention to the lands bought by the State when sold for taxes. So large an amount of land is now held by the State by virtue of such purchase, that it greatly reduces the receipts of revenue into the State Treasury, thereby causing embarrassment to the State, and making it necessary that a greater rate of taxation be continued on all the property of the people. The land, when purchased by the State remains in the possession and control of the former owner; he cultivates it free of rent and taxes, sometimes rents it to others and receives the rent, paying nothing to the State. This may, and often does continue for years, to the great detriment of the State and injustice to other tax payers.

I understand it is sometimes the case that a party will allow his lands to be sold for taxes, with a view of avoiding the payment of taxes thereafter. In my judgment, I cannot too strongly recommend legislation on this subject.

The tax title to real estate is admitted to be so uncertain and insecure that individuals are unwilling to trust them, and the consequence is, they will not purchase at such sales. The State, therefore, is compelled to purchase the lands thus sold for taxes. After the purchase by the State the former owner remains in possession or control of the lands as he did before the sale, and just before the expiration of the time for redemption, the same party gives the same land again to the assessor for taxation—fails to pay as before, and the land is again sold and bought by the State. The former owner holds possession as he did under the former sale, during the time allowed for redeeming, when the same course is taken and repeated for years, and

the State never collects a dollar of taxes upon it. This should be remedied.

STATE OBLIGATIONS.

The funding obligations of the State, generally called State money, have been gradually advancing in value until they are now almost of equal value with United States currency, and the fact that they have advanced and against very strong and influential combinations of money and talent is quite persuasive that their appreciation will be permanent. Their increased value is based upon the further fact that business men, as well as the people generally, have a growing confidence both in the ability and integrity of the State Government as administered by the party now in power. All believe that not only will the interest upon them be paid promptly, but the obligations themselves will certainly be redeemed by the State. I regard the restoration of the confidence of the people, in the promises of the State and her ability to meet her obligations of every kind as a grand achievement by this administration.

When I entered upon the discharge of the duties of the office of Governor, I found the State in a deplorable financial condition. It was encumbered with a large indebtedness and destitute of both means and credit. These State obligations, almost worthless, were being hawked about the country and often sold at a price as low as sixty to seventy cents on the dollar. Now they are so nearly at par that they could doubtless be used anywhere in payment of ordinary debts, except in cases where payments are to be made in bank.

This wonderful appreciation in funding obligations grows out of restored confidence, and why may we not have confidence in our own State, under the control of our own people—our own administration? This is one of the first fruits of "local self-government." The reduction made by this administration of our indebtedness, will enable the State to pay, and it will pay according to that adjustment, every dollar.

With restored confidence, prosperity will soon return and bless and crown with success the patriotic efforts of the people. The crops of grain for the past year have been abundant. The cotton crop is not large, but sufficient to have relieved our wants if a reasonable price could have been obtained. This, however, cannot be done on account

of the very unwise financial policy of the present Federal Administration—a policy that proposes, by a mere law of Congress, to force a state of convertibility between coin and paper money, without any economy on the part of the Government, and without reference to, or care for the industries of the country, or regard to its productions, or its trade at home, or with foreign nations, and without, in any proper way, having prepared, by wise and useful legislation, for the accumulation of coin in the United States, so as to produce no shock to the commercial or other industrial interests of the country.

PUBLIC SCHOOLS.

The report of the Superintendent of Public Instruction will exhibit the operations of our State system, for the year ending 30th September, 1876, as well as its present condition and prospects.

It affords me pleasure to say that this department of the public service has for the past fiscal year been managed with ability and success. Yet the system not having been perfected in all its details and workings in this State, I invite a careful investigation of it by you so that its efficiency may be increased and improved, and the different responsibilities growing out of its operations may be distinctly established and declared.

In some instances improper and incompetent teachers have been employed, which is to be regretted. Some well defined rule in relation to the competency and fitness of persons who may apply for positions as teachers should be established and enforced to prevent the recurrence of such mistake.

Our system of public instruction when matured and perfected will be of inestimable benefit to the people of the State. It will shed its blessings and extend its influences and advantages to all the citizens, and is eminently worthy of our greatest and best efforts for its promotion and advancement. Education is the great lever for the accomplishment of important ends and it should be in all constitutional modes, consistent with the ability of the government, encouraged, so that its benefits may be extended to, and enjoyed by all classes of our people. It is the sure road to greatness and power, both to citizens, and to the State.

IMMIGRATION.

I submit herewith a report from the Commissioner of Immigration, and invite your attention to its contents as showing the prospects of the enterprise in his hands. It is gratifying to me, as it must be to yourselves, to know that in many localities of the State considerable numbers of the best class of people from other States have become permanent citizens. They are gladly received and welcomed by the resident population, and will not only make very desirable additions to the society of the respective localities, but will also aid in the general prosperity, wealth and power of the State.

Alabama certainly offers the best advantages and highest inducements to immigrants. Every field of labor invites the industrious and enterprising citizen, by the abundant and rich returns offered.

The thriving village of Cullman, on the South and North railroad, in Blount county, is an example. There the industrious and thrifty Germans have settled in large numbers, with their intelligent laborers, and are adding not only to their own prosperity, but increasing vastly the wealth and power of Alabama.

The railroads of the State, and the prosperous and growing villages located upon their lines, have thus far done more to advance the cause of immigration in Alabama than the regular organizations, and the State is much indebted to them on account of their successful labors in that behalf.

The tide of immigration has now well set in, and I expect much of those instrumentalities in the future.

PENITENTIARY.

I invite your attention to the reports of the officers in charge of and connected with the State Penitentiary as showing not only its present condition, but also in full detail, its workings for the fiscal year ending September 30th, 1876.

In my annual message to the General Assembly of December 28th, 1875, among other suggestions I said, "with suitable legislation the Penitentiary could and would be made a source of profit to the State."

By reference to the details of the reports to which I have already invited your attention, you will perceive that

my prediction has been realized, notwithstanding my recommendations in the message were not fully carried out.

From the exhibit marked "A" attached to the Report of the Warden it will be seen that for the fiscal year just closed, the warden paid into the State Treasury six thousand dollars (\$6,000); cash on hand, \$3,621 03; solvent claims for labor, uncollected, \$11,386 37; amount of expenses in carrying on and sustaining the Penitentiary, \$5,059 34; making a total of receipts to be \$26,066 74— from which it is proper to deduct the sum of \$5,059 34, expenses of Penitentiary during the year, also the sum of \$6,700 paid by the State as salaries to the officers of the Penitentiary, making a total of \$11,759 34, which deducted from the receipts leaves a balance in favor of the Penitentiary \$14,307 40 over and above all expenses. If you will give the Penitentiary a proper credit for the one hundred convicts hired to Mr. Williams to pay for the farm known as the Penitentiary Farm, you will discover that its payments to the State are much larger than the money actually paid into the treasury. This farm was purchased for fifty thousand dollars, and paid for in State bonds bearing interest, but under the contract made by myself as Governor, and Thomas Williams, the bonds were returned to the State, and the farm is to be paid for and is being paid for by the services of one hundred convicts for eight years; therefore the Penitentiary will be entitled to an annual credit of one-eighth of \$50,000, say \$6,250, which added to the balance above stated, shows the net earnings over and above all expenses, to be \$20,557. This statement is based upon the hypothesis that one-eighth of the purchase money for the farm was to become due annually, when in fact the purchase was made upon a cash basis. The State was to pay, and did pay, fifty thousand dollars of its bonds, bearing eight per cent. interest, payable half yearly, with coupons attached. In this view of the original purchase the Penitentiary is entitled to a credit for interest as if the original purchase had not been changed, which would increase the amount of credits to which the Penitentiary would be entitled to a much larger sum.

In my former message, I said "the State pays for feeding prisoners while imprisoned in the counties, which for the last fiscal year amounted to \$94,020 25; pays fees to sheriffs in cases of insolvent convicts, which last year was \$5,778 93, also pays for arrests of absconding felons,

which was for above named year \$3,696 10, aggregating one hundred and three thousand four hundred and ninety-three dollars and twenty-three cents (\$103,493 23), to which should be added other small items paid by the State, and not enumerated in this message. It seems but fair, under this state of facts, that the convicts should be sent to the Penitentiary, that the State may have the benefit of their labor. It is useless to keep up the Penitentiary as a place of punishment, if those who are convicted of felonies, are sent to work for the counties, and in that way make the Penitentiary a useless expense to the State."

I ask to repeat what I then said, and invite your careful attention to it:

For the fiscal year ending 30th September, 1876, the items of expense set forth in the paragraph from my former message, are for feeding prisoners \$99,682 40, for fees paid to sheriffs in cases of insolvent convicts \$10,794 13, for arresting absconding felons \$4,330 70, aggregating \$114,807 23. Thus you see these expenses have become greater, notwithstanding I have faithfully struggled to reduce them, and yet I think, and so recommend, that some restrictive act be passed preventing continuances in criminal cases upon trivial showing.

I also recommend a modification of the act of March 7, 1876, "to provide for the punishment of persons convicted of crimes in certain cases." So that in all cases in which the term of service does not exceed one year it shall be discretionary with the judge to sentence them either to the penitentiary or hard labor for the county as he may think will best promote the ends of justice, but in all cases in which the punishment is for two years or more, the convicts must be sent to the penitentiary without any such discretion on the part of the judge.

Upon a review of the subject, I feel it my duty respectfully to invite your attention again to that subject. The expenditures connected with the arrest and feeding of prisoners are becoming very large and cannot possibly be reduced except by legislation, and as these expenses are paid by the tax payers of all the counties, it occurs to me that the profits of the labor of such prisoners after conviction should go into the State Treasury for the benefit of the very tax payers who paid the expenses above referred to, and not to the county in which the conviction may have been had. If the convicted prisoners are sentenced to the

penitentiary the profits of their labor go into the Treasury of the State, and of course inure to the benefit of the State, and all the tax payers therein, but if sentenced to work for the county in which they were convicted, the tax payers of that county receive the entire benefit of their labor, although they paid only a small portion of the expenses. This is in my judgment unjust, because by it one portion of the people are taxed for the benefit of another.

I renew the recommendation of my former message, as follows: "In addition to a law defining and punishing escapes from the State penitentiary, I invite your attention to the subject of escapes in another point of view. There is at present no well defined responsibility upon those who have convicts in charge under a contract of hiring from the Warden, and while thus in their charge, make an escape. I think there should be some regulation by law defining the responsibilities and duties of those who hire convicts, and particularly in relation to escapes." I regard this as important and trust I may be excused for respectfully urging it upon your consideration. It should not be left to be settled by contract between the Warden and those who hire convicts. I consider some legislation upon the subject necessary.

I concur with the Inspectors in their suggestion in relation to the expense of conveying convicts to the penitentiary, and again respectfully invite your attention to it, with a view to a change of the law on that subject.

The officers of the penitentiary have been diligent and faithful, and deserve well of the country.

The labor, and also the responsibility of the Inspectors, have been considerably increased, and it seems but just that the amount of their future compensation be also increased as your wisdom may consider proper.

After several fruitless efforts to obtain a settlement with Mr. Willis, the former warden of the penitentiary, I have caused suit to be instituted upon his bond which is now pending in the Circuit Court of Montgomery county.

UNIVERSITY AT TUSKALOOSA.

The State University at Tuscaloosa continues to prosper. The number of cadets has largely increased over the last scholastic year, with flattering prospects for further enlargement.

I am much gratified to know that it is rapidly growing

in popularity as an institution at which the student may make his education both thorough and finished. It has no superior in any State.

AGRICULTURAL AND MECHANICAL COLLEGE.

This college, I am pleased to say, is steadily growing in public favor.

From the report which is herewith submitted you will see that the number of students during the year 1875-6 was one hundred and four, with a prospect of an increase the present year.

The President, assisted by an able faculty, seems determined to make this institution what it should be—a successful means of educating the youths of the country.

NORMAL SCHOOLS.

The State Normal School at Florence, I am glad to say, is in a highly prosperous condition. Some of its former pupils are now in charge of public common schools and have shown themselves well qualified for teaching.

I regard this school as a success, and if properly cared for and conducted it will do much to revolutionize the system of conducting the common schools of the State, and will be of inestimable value to coming generations.

DEAF AND DUMB AND THE BLIND.

For full information as to the management of the Alabama Institution for the Deaf, Dumb and the Blind, for the fiscal year ending September 30, 1876, I refer you to the report of Board of Commissioners and officers of that Institution which accompanies this message.

No institution can have more worthy objects in view or have stronger claims for encouragement, and it is greatly to be regretted that so many of the children of the State, that are so sorely afflicted should be raised to maturity without its benefits.

By educating the deaf and dumb and the blind, the State not only elevates and prepares them for good and useful citizenship, but by teaching them in the arts of handicraft they add to the productions as well as to the wealth and power of the State.

ALABAMA INSANE HOSPITAL.

I invite your careful examination of the recommendations of the Trustees and Superintendent of the Alabama Insane Hospital, to be found in their report herewith submitted.

The valuable information contained therein will necessarily be of great service in your deliberations upon the interests of that very useful institution.

Its blessings upon the whole country, by its great care and skillful treatment of the many cases of insanity, cannot be estimated.

The building should be so extended that its accommodations may become equal to the wants of that unfortunate class of people. The application heretofore made to Congress by the General Assembly for permission to use the swamp land fund for this purpose, should be pressed upon the very favorable consideration of that body.

STATE CERTIFICATES.

In compliance with the act approved 20th March, 1875, and as its terms require, I have caused each of the following notes or bills, after proper examination, recording, and comparison, to be burned in my presence, to-wit: \$2,830.00 in 5 dollar bills, \$2,270.00 in ten dollar bills, \$3,300.00 in twenty dollar bills, \$250.00 in fifty dollar bills, and \$600.00 in one hundred dollar bills, aggregating nine thousand two hundred and fifty dollars (\$9,250.00).

PARDONS.

I herewith furnish you a list of pardons, reprieves and commutations, granted by me, as well as the fines and forfeitures remitted during the year ending 30th September, 1876, with the reasons therefor.

STATE MILITIA.

I refer you to the report of the Adjutant General of the State for full and detailed information as to the condition of this branch of the public service. There are, as you will observe, several organized companies that have been accepted by the Executive, but which have not been furnished with arms, and some of those that are reported as armed have not received the accoutrements necessary to complete their equipment.

The annual appropriation for the supply of arms to the State being exhausted, the further supply of arms and accoutrements had to be postponed until the next annual payment.

Out of the next amount received I hope to be able to complete the equipment of such companies as have been accepted, and until that is done I decline to accept any other companies.

REGULATION OF CONTRACTS.

The act approved 7th March, 1876, "To carry into effect and regulate contracts made under section 30 of article 4 of the Constitution of this State," is so comprehensive in its terms and provisions, that serious embarrassment as well as loss to the State, will be the result.

The construction given to that act requires publication to be made in one or more papers before the State can be furnished with the smallest amount of material or articles for use, or repairs necessary to be made. In many cases the cost of the notice for bids will equal, if not exceed, the cost of the article to be furnished, or the repairs to be made.

I invite your attention to the law, and trust you will examine more fully the demands of the Constitution in that particular, and if under the provisions of that instrument you can do so, I hope you will at least modify it by providing that all articles and repairs, costing less than some amount named, may be furnished or made without such publication.

PUBLIC ROADS.

I recommend a revision of the laws upon the subject of Public Roads. They need amendments in some important particulars. Their provisions should be more stringent as to the punishment of defaults, and in providing for more certain collection of the fines against defaulters.

PROSECUTIONS.

I also recommend a modification of the act approved March 4, 1876, to prescribe the time in which prosecutions for certain offences therein named may be commenced. The time named in that act is insufficient for an offence of that magnitude and character. It would be very difficult

indeed for the fact of the existence of such a crime to be discovered or become known in the short time allowed in that act. An officer who would commit so grave an offence would certainly prevent its discovery if he could, while he remained in office, and would so conceal and cover it up that it would be difficult to make an early discovery of it after his term of office expires.

The offence has become too common, with both State and federal officials, and it is our duty to punish or provide for the punishment of such criminals within our jurisdiction.

In view of these considerations I recommend that the statute of limitations for the offence therein referred to shall be six years, and that the punishment be increased by a longer confinement in the penitentiary.

COMMISSIONERS TO EXAMINE STATE OFFICES.

Under section 70 of the Revised Code, I appointed G. W. Noble, W. H. Dingley and E. A. Graham to examine the State offices, as that section required, and I now transmit their report for your examination and consideration.

I especially ask your attention to the very pointed criticisms of that report in relation to the failure of county officers to make proper reports. It should be made the duty of all officers, who send money to either the Auditor or Treasurer, that they, at the same time, send a written statement with said remittance, showing the amount, and kind of money so sent, and also a copy of said written statement, to the head of the other department—for instance, if the money and statement be sent to the Auditor, then send at the same time a true copy of the statement to the Treasurer, and if the money and statement be sent to the Treasurer, then a copy of the statement shall be sent to the Auditor, and it should be made the duty of the Auditor and Treasurer to file carefully and preserve all such statements, for reference at any time, when desired by the General Assembly or the Governor.

The report of the commissioners says: "We find a number of entries upon the books of this (Auditor's) office for which no vouchers are on file, notably for interest and deductions." How this can be the case without a departure from the great and vital principle of checks and safeguards, upon which the departments of all wise and safe governments are founded I cannot understand. It is, or should

be the policy of the government to multiply the checks in its departments upon each other, especially in the management and use of its moneys, and whenever these checks are disused or neglected, the government has no safeguard, beyond the accuracy and integrity of its officers.

As a general rule, all money of the State should be paid out or disbursed alone by the Treasurer, and then only upon the warrants from the Auditor, and the papers in all cases upon which a warrant shall issue, should be properly filed and preserved by the Auditor, and in no case should the money of the State be paid out, or in any way disbursed without a valid legal voucher to sustain it.

CONCLUSION.

Allow me to congratulate you and the entire country upon the signal and brilliant success of the patriotic people of the United States in their great struggle against fraud and corruption, as practiced by the party in the control of the federal government in the election, by an unprecedentedly large popular majority, of Tilden and Hendricks for President and Vice President of the United States. They have achieved a victory unequalled by any known to civilized governments, a victory achieved through the quiet and peaceful instrumentality of the ballots—the mode provided by our fathers for the protection and maintenance of the government in its strength and purity—no blood—no violence—no force. They have covered themselves with never fading and imperishable honor, and have made a name of which their children to the latest generation may be justly proud.

Having discharged the duty imposed upon the Executive of the State by the Constitution and laws, in submitting to you this message, it now becomes your duty to enact such laws as in your judgment will best promote and advance the interest and happiness of our constituents, which I am confident you will wisely and patriotically strive to do.

Wishing you success in the discharge of your highly important trusts as Representatives of the people, I beg to assure you of my readiness to cordially co-operate with you in the labors of your session.

MESSAGE FROM THE GOVERNOR,

By Mr. Vincent, his private secretary—

EXECUTIVE DEPARTMENT,
November 21, 1876.

Gentlemen of the Senate and of the House of Representatives:

By virtue of an act of the General Assembly, approved 8th March, 1876, entitled an act to provide for the revision, digesting and promulgation of the public statutes of this State of a general nature, I appointed Honorables Wade Keyes and Fern M. Wood as commissioners to perform the duties therein prescribed.

They have to-day submitted to me their report, accompanied with the manuscript of said Code of 1876, including the index to the same, together with their suggestions as to further legislation.

The law requires me to make a careful examination of the work, but it is not practicable for me to do so in time to give the General Assembly an opportunity to make a proper examination of the report and accompanying papers, with a view to the adoption or rejection of the Code presented by the commissioners.

In view of the very great importance of the subject, and the necessity of affording you the fullest opportunity of giving it a deliberate and thorough investigation and examination before and in time for final action at this session, I transmit the report and accompanying papers at once, that you may take the necessary and proper steps in relation thereto.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor, was received by the hand of Mr. Vincent, his private secretary:

EXECUTIVE DEPARTMENT,
November 22, 1876.

Gentlemen of the Senate and of the House of Representatives:

I invite your attention to a report of the commissioners to adjust and settle the bonded indebtedness of the State of Alabama, herewith submitted.

The report is presented at this early period of the session, that you may be enabled to take such action at your present session in relation to the eleven bonds referred to, as you may consider necessary.

GEORGE S. HOUSTON,
Governor.

The report is as follows:

OFFICE OF COMMISSIONERS,
Montgomery, Nov. 22, 1876.

To the Governor of Alabama:

The act of 17th December, 1874, provides that the term of service of the commissioners appointed to adjust and liquidate the indebtedness of this State, be limited to two years, and at the expiration of that time we shall be prepared to submit to the General Assembly our final report which will contain a detailed statement of our transaction in the execution of the act of 23d February last.

The funding act makes ample provision for the liquidation of every class of bonds embraced in it, but there have been presented to us eleven bonds of \$1,000 each, dated 1st May, 1833, and due in 1863, for the exchange of which no provision is made, because their existence was unknown to the commissioners or General Assembly at the time the funding act was passed. There is no record showing that they have not been renewed, and until presented to us, we had no knowledge that they were outstanding. As those bonds bear satisfactory evidence of being genuine, we deem it to be our duty to communicate the fact of their

existence before our final report is submitted, so that the General Assembly may have time to provide by law for their liquidation, if deemed just and proper. We respectfully recommend that authority be given to substitute new bonds of Class A, on the terms applicable to other recognized straight bonds.

There is, in our judgment, no necessity for further legislation to secure a full and complete settlement of all the claims embraced in the funding act. The progress which has been made in the execution of the act has been rapid and satisfactory—more so than has attended the efforts of any other State to fund its indebtedness; and, when it is considered that at the time the funding process commenced the bonds of the State were scattered over two continents, our success, so far, gives assurance to the people of Alabama that no apprehension of failure to complete the settlement need be indulged.

In view of the improved financial condition of the State, and the certainty, as we believe, of the execution of the funding act, in all its parts, within a reasonable time, we tender to those whom we represent our sincere congratulations.

Respectfully,

GEO. S. HOUSTON,
LEVI W. LAWLER,
T. B. BETHEA,
Commissioners.

The following message from the Governor was received by the hands of Mr. Vincent, his private secretary.

EXECUTIVE DEPARTMENT,
November 29, 1876.

Gentlemen of the Senate and of the House of Representatives:

I trust you will permit me to again invite your attention to the condition of the present revenue law, as well as the receipts of revenue under it.

In my message to you at the beginning of the present session, I stated that the receipts under the act of 1876 would disappoint the friends of the act, and that instead of yielding two hundred thousand dollars more of revenue than the act of 1868, its excess of yield over that act would not exceed "thirty-six thousand three hundred and fifty-three dollars."

The statement and estimate made by me in that message were based upon a table from the Auditor's office, comparing the actual receipts under the act of 1868, with the assessments under the act of 1876, as shown by the abstracts of the probate judges returned to that office.

Since that time the Auditor has discovered that he made a mistake in the preparation of the comparative table spoken of, and that instead of there being an increase of receipts under the present law as compared with the preceding one, it shows a decrease in sixty counties of "eleven thousand five hundred and nine dollars and sixty-three

cents," unless there shall be much larger supplemental assessments than heretofore, and I ask your attention to this condition of things, and the prospects of the accruing revenue, that you may take some proper action in regard to it, with a view to its equalization and improvement.

I invite your attention to the further fact that there is but little revenue received into the treasury from taxes the current year, because of several reasons: First, there is no rebate of the amount, as was the case last fiscal year, nor is there any penalty as there was then. Large numbers of taxpayers who pay large amounts of taxes now have the State money which they are holding to pay their taxes; but as they can hold it until January 1, 1877, and receive from the State interest upon it and incur no penalty, they propose to do it and thereby make interest, while their taxes fall due 1st October preceding, but bear no interest. Hence the State not only loses the interest thus paid upon the State money, but is also deprived of the use of the money at a time when she greatly needs it. The taxpayers who pay small amounts of taxes are the persons who are now paying their taxes, while many of those who pay larger amounts, are holding back the payments, until after 1st of January next, to collect from the State interest upon the money before they pay it to the collector. This, in my judgment, should be looked into and remedied. Section ten of the present revenue law should, in my judgment, be so modified as to require the tax collectors therein referred to, to deposit the revenues collected by them at least twice each month, the precise time to be designated by the Auditor of State under the direction of the Governor, which days may be changed at any time as the Governor may deem necessary for the interests of the State, but in no case to fail to make such deposits as often as once each month, as now required by the act.

Section twelve of said law should also be modified, so as to authorize and empower the Governor, if he should consider such course necessary to advance the interests of the State, to require payments to be made to the Treasurer of the State more frequently than specified in said section.

In illustration of some of the points presented in this message, I ask your careful examination of the table herewith presented, which shows that for the months of October and November, 1875, the collectors of revenue paid into the State Treasury one hundred and seventy-four thousand four hundred and five dollars and sixty-eight

cents, while for the same months of the year 1876, only the sum of fifty-two thousand four hundred and eighty-two dollars and eighty-three cents have been paid into the treasury, and it is but a reasonable conclusion that the payments from now until after the first of January, 1877, will be very small, growing out of the facts already stated.

Receipts at this rate, I fear, will not furnish money sufficient to meet the various demands upon the State, and I feel that I cannot too strongly urge upon you the necessity of early action in the premises. Certainly there can be objection to requiring such revenue as may be collected to be promptly paid into the treasury that the State may avail of its use in all needful cases.

I regard it as a wise and just policy for the State to withdraw from the receivers of revenue as promptly as may be consistent with right and justice to the parties such moneys as may be in their hands belonging to the State. It thereby relieves the receivers of responsibility which they would gladly avoid or get clear of, and at the same time enable the State to meet its engagements with certainty and promptness.

GEORGE S. HOUSTON,
Governor.

On motion of Mr. McMath the House adjourned until Friday morning 10 o'clock.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

EXECUTIVE DEPARTMENT,
December 4, 1876.

Gentlemen of the Senate:

Section one of the act approved 23d February, 1876, provides that the bonds of the State authorized to be issued under that section, "shall not be taken or held as complete obligations of the State until they are respectively authenticated by the signature of at least one of the commissioners appointed by the Governor, under the said act, approved 17th December, 1874."

The 6th section of said act of 23d February, 1876, makes the same provision as to the authentication of the bonds to be issued under it. And the same is true as to the portion of bonds to be issued under section 9 of the said act of February 23, 1876, that are to be exchanged in the city of New York.

The terms of the commissioners, including myself as *ex officio* a member of the board, will expire on December 17, 1876, after which time no person will be authorized by law to authenticate the new bonds, and consequently during that condition of things the exchange of bonds will necessarily be suspended. True, I could very easily have the new bonds authenticated before the expiration of the term of service of the commissioners, thus completing the execution of the bonds, and perfecting the State's liability on them in advance of the time of their exchange. Such, however, has not been my policy, nor is it the policy of the act of February 23, 1876. I have construed the fact that the law requires that the precise authentication of the bonds referred to shall be made before they become obligatory upon the State as the announcement of a purpose by the General Assembly that the new bonds shall not be in condition to be binding upon the State before the exchange, if, by accident or otherwise, they should improperly fall into the hands of those not entitled to receive them. I would be unwilling to see them authenticated except upon their exchange under the statute.

The exchange of bonds under the funding act has so far progressed as to leave no doubt of its satisfactory completion. But for a few months it will, in my judgment, be

necessary to have some competent person associated with me to assist in the execution of the work.

My duties as Governor will, during the session and for some time after the adjournment of the General Assembly, place it out of my power to give such attention to the execution of the funding act as I would like to do, or as will be necessary for the careful transaction of the business and duties required by it.

I therefore recommend that you continue one of the commissioners, or that I be authorized to appoint a commissioner to act in conjunction with myself in carrying out the provisions of the funding act, his term of service to be limited to six months, with authority to dispense with his services at an earlier day if I should believe they were not further needed in the work. It is important that the terms of the funding act be carried out and the business under it closed at the earliest practicable period, and I need not assure you that it is my purpose to work to that end without any waste of time.

Geo. S. Houston,
Governor.

MESSAGE FROM THE GOVERNOR.

Gentlemen of the Senate and of the House of Representatives:

I herewith transmit the report of the Commissioners appointed under the act "To liquidate and adjust all claims against the State of Alabama arising from bonds issued or endorsed in the name of the State," approved 17th December, 1874, and it affords me much pleasure to invite your attention to its contents.

There can be no reasonable fear that the adjustment made by the Commissioners will not be speedily carried into full effect; and I congratulate the people of the State upon their fortunate deliverance from the oppressive burdens that would have rested upon them but for this adjustment.

That part of the compromise and adjustment that relates to the two millions of dollars of straight gold bonds loaned by the State of Alabama to the Alabama & Chattanooga railroad company, was by the act approved 20th March, 1875, "To protect the State in the matter of the franchise and property of the A. & C. R. R. Co. &c.," referred to myself as Governor of the State for settlement; hence the questions growing out of that unfortunate loan by the

State, are not mentioned by the Commissioners in their report now submitted to the General Assembly.

I hope and confidently believe that upon your re-assembling, on the 9th of January next, I will be able to report a full and perfect carrying out of the settlement made by me with the holders of those bonds, thus showing a perfect disconnection of the State from all complications with that road, and the disastrous transactions connected with it, as well as all questions growing out of it.

In closing this message I trust I may be permitted to express my grateful feelings and many obligations to Hons. T. B. Bethea and L. W. Lawler, appointed by and associated with me, for their energy, wisdom and faithfulness in the discharge of the various and responsible duties devolved upon them by the law by virtue of which they were appointed.

Respectfully,

GEO. S. HOUSTON,
Governor.

Executive Office,
Montgomery, Ala., Dec. 13, 1876.

OFFICE OF COMMISSIONERS,
Montgomery, Dec. 13, 1876.

To the Governor of Alabama :

As required by section twenty-one of an act of the General Assembly, approved 23d February 1876, the undersigned respectfully submit the following report of what has been done by them under said act.

The funding act provides that the new bonds, designated as class A and class B; shall be dated 1st July 1876. Prior to that time they could not be issued, and none were delivered to us until after that date. After the delivery to us of a portion of the bonds we gave notice by advertisement in newspapers published in New York and London "of the time and place when and where" the exchange and substitution of bonds could be made. An agency was established in the city of New York on the 24th day of July last, and continued until the 24th day of October, under the supervision of one of the Commissioners. The bonds exchanged during the existence of that agency embraced about two-thirds of all the bonds which the act authorized

to be exchanged in New York; and including the amount exchanged at this office, nearly three-fourths of the recognized straight bonds have been retired by the substitution of new bonds of class A and class B.

The issue of class A is limited to \$7,000,000, and of this amount we have issued \$4,655,900, and have retired old bonds of the State, exclusive of those bearing 7 per cent. interest, amounting to \$5,054,970, besides past due interest—as follows:

Act 15th December, 1865, and 13th February, 1866.

Five per cent. bonds due in New York in

1886.....	\$ 344,900
Five per cent. bonds due in London in 1886....	44,457
Six per cent. bonds due in London in 1886....	48,508
Act 18th January, 1866.	
Five per cent. bonds due in New York in 1883	1,341,000
Act 6th February, 1867.	
Five per cent. bonds due in London in 1886....	442,380
Act 17th February, 1870.	
Six per cent. bonds due in London in 1890....	388,725
Act 19th February, 1872.	
Five per cent. bonds due in New York in 1892	94,000
Act 9th February, 1852.	
Five per cent. bonds due in New York in	
1872.....	17,000
Act 15th December, 1865.	
Eight per cent. bonds (Patton issue) due in 1886	598,500
Act 12th August, 1868.	
Eight per cent. bonds (Smith issue) due in 1888	349,500
Act 15th December, 1871.	
Eight per cent. bonds (Lindsay issue) due in	
1892.....	689,000
Act 25th February, 1873.	
Eight per cent. bonds (Lewis issue) due in 1893	537,000
Act 8th March, 1871.	
Eight per cent. bonds issued by Governor Lind-	
say and due 1st of December 1871.....	130,000
	<hr/>
	\$5,054,970.

The interest which had accrued up to 1st of July last on the bonds taken up of the foregoing issues, was cancelled in accordance

with the funding act without any substitution of bonds, and amounted to about. . . .	979,000
--	---------

Total.	\$6,024,970
----------------	-------------

In converting bonds payable in London in pounds sterling into bonds payable in New York in lawful money of the United States we have been governed by an act of Congress which fixes the value of a pound sterling at \$4 86 13-20.

It is proper for us to state that of the amount taken up of the issue of 25th February, 1873, one hundred and twenty-nine bonds of \$1,000 each were surrendered by F. Wolfe, assignee in bankruptcy, upon the payment of \$45,000 by the State under authority conferred by section six of the funding act. This extinguishes all claim or claims against the State growing out of the purchase of the Alabama & Chattanooga Railroad at bankrupt sale by Gov. Lindsay.

The settlement with the holders of bonds which had been hypothecated with Henry Clews & Co., was made on the basis of \$570,63 for each bond of 1,000. Of the 650,000 hypothecated with Clews & Co., and by them transferred to other parties, we have retired \$579,000, leaving \$71,000 outstanding.

There are now outstanding of the various issues of recognized straight bonds, bearing 5, 6 and 8 per cent. interest, about \$2,200,000, (exclusive of \$253,500 belonging to the Agricultural and Mechanical College, (now held by the State as a trust fund under the present Constitution) and there remains unused of the new bonds of class A., and not authenticated by the endorsement of either of the commissioners, \$2,344,100--showing that the \$7,000,000 of class A will be ample to take up all the recognized straight bonds as intended by the act.

The \$650,000 of the issue of 25th February, 1873, held by Josiah Morris & Co., at the date of our first report, still remain in their possession; but they belong to the State and constitute no part of its indebtedness. Up to this time Morris & Co., have declined to surrender them to the State, under the plea that it would not be safe for them to do so unless so ordered by some court of competent jurisdiction. Legal steps have therefore been taken to compel the delivery of the bonds to the State.

Of class B, the issue of which is limited to \$596,000, we

have issued \$456,000, and we have retired 7 per cent. bonds issued to railroad companies under what is known as the \$4,000 per mile act, amounting to \$984,000, leaving only \$172,000 of that issue outstanding.

Governor Lewis issued to the South and North Alabama Railroad Company \$72,000 without any return of endorsed bonds, which we think was premature and unauthorized. We therefore required those bonds to be returned to the State without any substitution of bonds of class B—to which the company assented.

The agreement between the Commissioners and the agents of the holders of the endorsed bonds of the Alabama and Chattanooga Railroad Company has been approved and accepted by the bondholders, and only awaits actual exchange of bonds. The delay in surrendering the bonds is attributable to the litigation pending between the bondholders and other creditors of the company, in which the State has no interest. Such delay will not defeat the settlement with the State, nor affect its rights.

We have no recommendation to submit in regard to any claim preferred against the State which is not embraced in the funding act, or in our late special report. Nothing has occurred to change the views expressed in our first report.

Pursuant to the provisions of the twentieth section of the funding act, we have caused all bonds taken up by us to be registered and cancelled, and they have been burned, in the presence of the Secretary of State and Attorney-General, after being compared by them with the registration, as shown by their certificates, to be found in the book of record. The same book contains a full registration of all bonds issued by us of each class and denomination, and said book has been delivered to the Treasurer of the State as the law requires, and can be inspected by such committee as the General Assembly may appoint for that purpose, as well as for the purpose of examining our transactions generally as Commissioners.

In another book, which we have also deposited in the office of the Treasurer, we have registered all the bonds and coupons turned over to us by the State Treasurer as directed in section twenty of the funding act. The bonds and coupons thus registered as well as a considerable amount of mutilated notes issued by the State bank and branches, have been burned in the presence of the Secretary of State and Attorney General. The bonds so des-

troyed amount to \$11,564,000, and the coupons to \$3,797,016.

The mutilated bank notes could not be accurately described, nor the exact amount determined, as many of them were so mutilated as to render it impossible to determine the date or amount.

During the investigation ordered by a joint resolution of the General Assembly, approved 8th March, 1876, Arthur Bingham, late Treasurer of the State, presented to us a package, the contents of which he said were unknown to him. At his request we opened it, and found that it contained uncanceled past due coupons which had been paid by the State, or which had been detached from bonds at the date of their issue, amounting to \$79,580. We had the coupons properly registered, and then burned as required by law.

One of the Commissioners, while in New York, called on Duncan, Sherman & Co., and Henry Clews & Co., former fiscal agents of the State, and requested them, respectively, to deliver to him, as authorized by the funding act, any and all bonds and coupons remaining in their possession as agents of the State. None were delivered to the commissioner at that time, but since then Duncan, Sherman & Co., have forwarded to us one hundred and eleven bonds of \$1,000 each, which had been taken up by them while acting as fiscal agents of the State. The bonds have been registered and destroyed.

Mr. Henry Clews, of the firm of Henry Clews & Co., declined to give the commissioner any information connected with the agency of his firm. We believe that firm still retains or has improperly transferred coupons which ought to have been surrendered and cancelled immediately after their payment, but we have no means of obtaining accurate information in regard to the matter. The State should not in any manner recognize any claim founded upon the possession of such coupons.

On the 17th instant our term of service will expire. For two years we have served the State in faithful efforts to adjust and liquidate its indebtedness, which we trust will not be without profit to the present and succeeding generations. The volume of indebtedness of the State including State Obligations will be reduced to about \$9,500,000, exclusive of trust funds. The whole amount of bonds authorized to be issued under the act of 23d February last of classes A. B. and C. is confined to \$3,596,000. As already shown, it

will not be necessary to use all of class A—and class C, is limited to \$1,000,000. It is therefore safe to say that the whole bonded debt will not exceed \$8,500,000. If to this amount be added \$1,000,000 of State Obligations, it will be seen that the adjusted debt will not exceed \$9,500,000.

The annual interest on the new bonds cannot exceed \$189,800 per annum for five years—being less than the annual interest on the entire *ante bellum* bonded debt. When the annual interest on the new bonds is compared with the enormous amount of interest which accrued annually on all straight bonds outstanding at the time the funding process commenced, to say nothing of the endorsed bonds the taxpayers will realize what an immense burden has been removed, and no longer feel despondent as to the future, so far as the public debt is concerned.

The average rate of interest on the new bonds for thirty years is 3.89, or little more than the rate paid by Great Britain, and much less than the rate paid by the United States. Ours is the only State in the Union which pays less than 6 per cent., except Massachusetts, which has recently sold some bonds bearing five per cent.

We present to the General Assembly and to the people of Alabama, the foregoing facts and results with entire satisfaction. We think the wisdom of the last General Assembly, in attempting to solve a difficult financial problem, has been fully vindicated. It seems to us that those who honestly doubted then as to the practicability of the scheme of adjustment devised by us and ratified by the General Assembly, must now have their doubts removed and be inspired with hope and confidence, and we trust that throughout the State there will be but one aim and one purpose, and that such united aim and purpose will be never to permit the honor and good name of the State to be tarnished by any default in the payment of interest on the adjusted debt. The principal will not mature for thirty years, and can then be renewed at the pleasure of the State; but the interest we hope and believe will be promptly paid as it matures. This we are satisfied can be done without oppression, and without long delaying a reduction of the rate of taxation.

In concluding our final report we beg to say that although the sum of \$15,000 was appropriated to defray the expenses of executing the act of 23d February last, we have only

expended \$7,910.23, as may be seen by an examination of the records of the office of the Auditor.

Respectfully submitted,

GEO. S. HOUSTON,
LEVI W. LAWLER,
T. B. BETHEA,
Commissioners.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT,
Montgomery, December 14, 1876.

Gentlemen of the House of Representatives :

I send for your consideration the report of the commissioners made under a joint resolution, approved March 8th, 1876.

Respectfully,
GEO. S. HOUSTON,
Governor.

OFFICE OF COMMISSIONERS.
Montgomery, Dec. 14, 1876.

To the Governor of Alabama :

The joint resolution of the General Assembly, which originated in the House of Representatives, and is numbered 488, imposes upon the undersigned the duty of ascertaining "by investigation what disposition was made of the amounts drawn by David P. Lewis, former Governor of Alabama, in three several warrants numbered, respectively, 3,067, 3,068 and 3,070, and aggregating in amount the sum of \$484,346 76," and also "what disposition was made of the sum of \$88,000 reported to have been received by Robert B. Lindsay, as Governor of Alabama, from Lewis Rice and William J. Haralson, receivers of the Alabama and Chattanooga Railroad."

We have discharged the duty imposed upon us in regard to the three warrants numbered 3,067, 3,068 and 3,070, and herewith hand you the testimony taken by us. As we believe it establishes a large balance due the State from Arthur Bingham, late Treasurer of the State, and as civil and criminal suits have been instigated against the said Bingham, on account of such defalcation as an officer of the State, we forbear to give in this report the substance of the testimony taken by us, and leave the General Assembly to take such action as may be deemed best to protect the interest of the State.

As to the item of \$88,000 alleged to have been received by Gov. R. B. Lindsay from Lewis Rice and Wm. J. Haralson, receivers of the Alabama and Chattanooga Railroad, we did not take action immediately after the reference to us, because, at that time, Gov. Lindsay's health was precarious and he was unable to travel. Since then we notified him to appear before us, and his reply accompanies this report. It appears that Gov. Lindsay is still in bad health and that he cannot safely leave his home.

We also wrote to Hon. Wm. J. Haralson, John C. Stanton and J. W. Burke, requesting them to be present on the day appointed for the investigation, but none of them appeared. Judge Haralson explains his connection with the matter in the letter which we transmit herewith. Mr. J. C. Stanton acknowledged the receipt of our notice and replied that he could not be here at the time appointed (13th November), but would respond by his presence at an early

day; but up to this time we have not seen him. As he resides beyond the jurisdiction of the State we have no power to compel his presence, or the presence of any other witness who resides beyond the limits of the State.

It appears from the letters of Gov. Lindsay and Judge Haralson that the transactions which we are instructed to investigate took place in New York, and consequently those who have personal knowledge in regard to them, except Gov. Lindsay, cannot be reached by us, and we are therefore unable to prosecute the investigation.

Gov. Lindsay says: "I executed my receipt in favor of Judge Haralson, Rice & Co., for a certain amount—I think for \$75,000—which I gave to Col. Glulrat to be delivered to them on the payment of the amount." There is on file in our office a paper which indicates that Gov. Lindsay accounted to the State for that sum, but beyond this we have no evidence as to the amount received by him, or the disposition made of it.

The undersigned having discharged the duty assigned them, so far as it has been in their power, ask to be discharged from further investigation.

Respectfully submitted,

GEO. S. HOUSTON,

LEVI W. LAWLER,

T. B. BETHEA,

Commissioners.

Mr. Hernilon, from the Judiciary Committee, reported favorably to the Senate bill—

s. No. 31. To secure more effectually, competent and well qualified jurors, in the counties of Montgomery, Lowndes, Autauga, Dallas, Perry and Bullock.

Mr. Hubbard called for the previous question.

The call was sustained and the bill was ordered to a third reading forthwith, read the third time and passed—yeas 62, nays 21.

Speaker, Allen, Baker, Beard, Beers, Betts, Bishop, Booker, Butler, Brown, Caldwell, Cunningham, of Landerdale, Cunningham, of Monroe, Crews, Crump, Darden, Dean, Denman, Denson, Dillon, Doster, Espy, Fletcher, Forwood, Foshee, Gere, Gilchrist, Goldthwaite, Glenn, Glennon, Gray, Griffin, Grove, Herndon, Hollis, Hubbard, Jackson, Jolly, Jones, Kelly, Kennedy, Kirkland, Mott, McAdory, McDavid, McDuffie, McFarlane, McKinstry, McKleroy, McMath, McWhorter,

Prowell, Ramsey, Robinson, Rodgers, Stevens, of Coffee, Taylor, Titeomb, Townsend, Wall, Welch and White—62.

WHEREAS, there is, as appears from public documents, an extraordinary disproportion between the amount of poll tax annually collected in this State, and the amount of said tax which, allowing, say, one-third of the voting population to be non-poll-tax payers, as over age, should be collected, making a deficit of about \$118,000 in the State's revenue from this source, and whereas, by full payment of said tax, not only would the general welfare be promoted, but also the free public schools for both races be most materially aided;

Therefore, be it resolved, That the Judiciary Committee be instructed to report, at an early day, upon the expediency of a law, the provisions of which shall require each

voter, liable to pay poll tax, to exhibit his poll tax receipt before voting at any State or county election.

REPORT OF THE COMMITTEE ON STATE UNIVERSITY AND INSANE HOSPITAL.

To the President of the Senate and Speaker of the House of Representatives :

The special committee, appointed in pursuance of a joint resolution of the two Houses of the General Assembly, to visit the State University and the Alabama Insane Hospital, and report their condition, &c., has discharged the duty imposed by said resolution, and respectfully asks leave to submit the following report :

On Thursday, November 30th, your committee proceeded to Tuscaloosa, and on Friday, December 1st, visited the University and spent the day in making as thorough an inspection of the corps of cadets, buildings, libraries, &c., as their limited time would permit, and gathered all the information they could, as to the general and practical workings of the University.

The committee had the pleasure of meeting Dr. Carlos G. Smith, the President of the University, and the other members of the able and accomplished faculty, and found them earnestly engaged in educating and training the young men, who will, at no distant day, participate largely in working out the destinies of Alabama.

The University is situated about a mile east of the city of Tuscaloosa, on a tract of about six hundred acres of land belonging to the institution, which was originally selected as the University site, on account of its beauty, healthfulness and pure water. This land, as the committee is informed, was a part of the seventy-two sections of land granted by the 6th section of the act of congress of March 2d, 1819, to the State, for the use of a seminary of learning.

The University was founded in 1831. Handsome buildings were then erected, and in the years 1858 and 1859 other excellent and substantial buildings were added, giving ample room for the accommodation of several hundred students. At the beginning of the late war the University was in a prosperous condition, being amply provided with chemical and philosophical apparatus, an

excellent cabinet of minerals and fossils, many rare astronomical instruments, and a large library of valuable books.

On the 3d of April, 1865, most of the buildings and other valuable property of the institution, worth at least two hundred thousand dollars, was burned by the soldiers under command of Brigadier General Crockston, of the federal army. On the 20th of February, 1866, the General Assembly passed an act providing for the loan, to the University, of seventy thousand dollars (thirty thousand of which is unpaid), with which an able and patriotic board of trustees began the erection of a splendid building, which was intended by them as only a section, or part, of a grand structure, the plan of which they hoped would be carried out in the future. Before this building was fully completed, this board of trustees was displaced by that sad revolution in the administration of the affairs of the State, which took place in 1868. Then, in common with other private and public interests, the University was prostrated, and continued prostrate for several years. Recently, however, it has been rapidly growing in prosperity and public favor, and to-day it stands as one of the brightest jewels of the commonwealth.

In the academic year ending July 5th, 1875, there were one hundred and eleven students in the University—an increase of fifty per cent. over the year previous.

The present academic year opened with one hundred and thirty-five, and new cadets are still coming in. Of these, sixty-five pay no tuition, having been admitted under the law which provides that three pupils from each county in the State shall be educated at the University, free from charge for tuition. The charge for board is \$11 40 per month; tuition in the academic department is \$40 per annum, and a splendid military uniform is furnished at \$20. If there is any institution in the United States that furnishes to students as good advantages as the University does, at so small a cost, your committee has not been able to learn its whereabouts. The cadets are young men of fine bearing, and under excellent discipline, due, no doubt, in a great measure to the efficiency of their instructors, and the constant care of the corps commandant, Col. Thos. C. McCorvy. The rooms of cadets are required to be neatly kept at all times, and special attention is paid to the dress and personal habits of cadets, and to their health.

The faculty reports that the present year has been

marked by excellent order, and commendable diligence in study.

The University, as now organized, has two departments of instruction—the academic and the professional. In the academic are the following schools, to-wit:

1st. The school of mental and moral philosophy, taught by the President, Dr. Carlos G. Smith.

2d. The school of the Latin language and literature, taught by Prof. Wm. S. Wyman.

3d. The school of the Greek language and literature, taught by Prof. W. C. Richardson.

4th. The school of English language and literature, taught by Prof. B. F. Meek.

5th. The school of modern languages, taught by Prof. W. A. Parker.

6th. The school of chemistry, taught by Prof. E. A. Smith.

7th. The school of natural history and geology, taught by Prof. E. A. Smith.

8th. The school of natural philosophy and astronomy, taught by Prof. J. H. Foster.

9th. The school of mathematics, taught by Prof. H. S. Whitfield.

In the department of professional education are two schools—a school of law and a school of civil engineering. The professors in these schools are:

H. M. Sommerville, Esq., Professor of constitutional and statutory law.

Hon. John M. Martin, professor of equity jurisdiction.

Horace Hording, professor of civil engineering.

The officers of the University are:

Col. Thos. C. McCorvy, commandant of cadets.

Capt. W. H. Jemison, quartermaster.

John B. Read, M. D., surgeon.

The mode of instruction, in all the schools, is by lectures and recitations, on the most approved text books, accompanied by daily examinations, oral and written.

The discipline, in the academic department, is military, but is so modified as not to encroach so much on the students' time as to interfere with his academic studies. It is designed to be what it really is, an efficient means to reach certain desirable ends, these being healthful, invigorating, manly exercise, good deportment and studious habits.

The University buildings consist of one very large

edifice, containing the mess hall and chapel, the library room, cabinets and laboratories, recitation rooms, society halls for students, and quartermaster's office, together with fifty-two rooms used for barracks, the President's mansion, five substantial and comfortable professor's houses, the observatory, (where the philosophical and astronomical apparatus is kept) and a house for weights and measures. These are all brick structures. Besides these, there are many out-buildings, in the way of necessary kitchens, stables, servants houses, &c., some of them built of brick and some of wood.

The real estate belonging to, and immediately connected with, the University, is worth, at a moderate estimate, not less than one hundred and twenty-five thousand dollars.

The University library contains only about three thousand volumes, but worth more than \$2,000.

The chemical apparatus is sufficiently complete to illustrate an ordinary course in experimental chemistry, and is estimated to be worth about \$1,500.

There are about four hundred specimens of minerals, valued at about \$200.

The general geological collection contains about one thousand specimens, valued at \$250.

The State geological collection contains about 15,000 specimens. This collection was partly made by Prof. Tanney, (which fortunately escaped the conflagration,) and partly by the present able and industrious State geologist, Prof. B. A. Smith. The value of this collection it is impossible to give—to the State, or student of geology of the State, it is invaluable. The professor of geology estimates its probable commercial value at \$5,000.

The value of the philosophical apparatus is roughly estimated at about \$5,000, and the astronomical at about \$10,000.

The great desideratum of the University, at this time, is more room. The fifty-two rooms, in barracks, are already beginning to be crowded. Not more than fifteen or twenty more cadets can be accommodated in them with any comfort, and unless further accommodations are furnished, it will not be many months, if accession to the corps continues, before admission will have to be denied to many of the young men of the State, who will be knocking for admission at the doors of the University, whose blessings are now beginning to be felt and appreciated throughout the borders of the State.

If the General Assembly will do its full duty in fostering its educational institutions, and providing within the borders of our own State facilities for cheap education, of a high grade, such as are now enjoyed at the University, our commonwealth will soon stand abreast with other great States of the Union in prosperity and power.

INSANE ASYLUM.

On the 21d inst., your committee visited the Insane Hospital, and made as critical an inspection as could be done in one day.

Part of the committee have never visited the Hospital before, and none of them had ever seen much of its workings.

It would doubtless be a gratification to every member of the General Assembly to visit the Alabama Insane Hospital, and see what your committee there saw. The noble charity which our State is daily dispensing to the unfortunate and desperately afflicted class, who enjoy the blessings of this institution, can hardly be conceived of, much less understood and appreciated, by one who has never visited an insane hospital, to say nothing of the trouble and anxiety of which the friends of the insane are relieved, by the provision which is made for these unfortunates in the hospital.

The hospital building is a splendid edifice—by far the largest building in the State. It is between seven and eight hundred feet in length, and three stories high. Besides apartments for the family of the superintendent, the chapel, kitchen, and necessary offices and store rooms, it contains eighteen wards or apartments, entirely separate and distinct from each other, built and kept exclusively for the insane, nine in one wing of the building for males, and nine in the other wing for females.

Each ward is arranged for the accommodation of about twenty patients, having its sitting room, dining room, elevator to convey food from the kitchen, its bath room, wash room, and water closet, and is divided into about twenty very small rooms, only large enough for a small bedstead and other necessary furniture for one person. Each ward has a hall running through its whole length, and is thoroughly ventilated. The whole establishment is furnished with gas pipes and fixtures, and is supplied with the greatest abundance of pure water, from a never-failing spring

within the hospital inclosure, which is pumped by a steam engine into a large reservoir, in the top of the main building, and thence distributed by pipes into every part of the house and outhouses.

The house is heated by an immense furnace, which, in cold weather, is kept going day and night. By flues and registers the heat is conveyed to every part of the building. Notwithstanding the day the committee visited the hospital was as cold as is ever experienced in this climate, the thermometer being below freezing point all day, the rooms were all perfectly comfortable, even to the most delicate patient.

The patients were comfortably clad, and show that they are well fed and provided for. The walls are clean and fresh, the beds, rooms, halls and dining rooms neat and in perfect order.

Everything is arranged for convenience and labor-saving.

The patients are classified in the wards, according to their degrees of insanity, intelligence, habits, &c., so as to make all as happy and comfortable as their afflicted condition will allow.

The most striking feature about the institution is the freedom from restraint among the patients. No patients were confined to their rooms, but all were allowed at least the freedom of the halls and sitting rooms. They seem easily managed by firmness and kindness. It was a matter of interest to see how much pleased many of them were to receive our visit, and the visit of the superintendent who accompanied us. They would flock around Drs. Bryce, Huger and Cochran, the superintendent and physicians, explain their hallucinations, tell them of their troubles, and of their joys, and seemed to regret to see them leave the wards.

There are about three hundred and seventy patients in the hospital; all supported at the expense of the State but about thirty, and the institution is full. Applications are being constantly made for admission, but have to be refused for want of room. None but the very worst class of persons—those who are a terror to their families and neighborhoods—are taken, because it is absolutely impossible to accommodate them without more room. There are many insane people of the State now confined in jails and out-houses, who are too dangerous to be admitted to go at large, because the hospital is crowded. It is for the

General Assembly to determine whether this shall continue to be so. The trustees of the hospital, in their last annual report, to which the attention of the General Assembly is called, recommend a small appropriation for a new building, which, if made, would correct the existing evil.

Everything about the hospital bears the marks of a master hand. Everything is in the right place, and in good taste—the out-buildings, stables, laundry, the machinery, piggeries, henneries, orchards, bee houses, fields, gardens, lawns, green houses, the hall, and other appliances for amusing patients, the fine cattle, hogs, poultry, in short, everything about the institution shows that Dr. Bryce is pre-eminently fitted for the position he has so long filled with so much honor to himself and benefit to the State, having made the asylum a perfect “temple of meekness.”

From what the committee saw, we have no doubt but that every word contained in the superintendent's report is literally true, and we commend it to the careful perusal of the General Assembly as containing an accurate statement of the condition of the hospital, its operations, management and necessities.

In submitting this report, your committee cannot refrain from the expression of pride that Alabama can boast of two such institutions as her University and Insane Hospital.

Respectfully submitted,

A. O. HARGROVE,
R. CUNNINGHAM,
I. M. JACKSON.

Which was agreed to—

REPORT OF COMMITTEE ON PENITENTIARY.

To the General Assembly of Alabama:

The Joint Special Committee of the General Assembly of Alabama, instructed by joint resolution to visit, examine and report upon the condition of the Alabama State

Penitentiary and its dependencies, beg leave to submit the following report :

Before entering upon the discharge of the duties assigned them, your committee availed themselves of the information on the subject under consideration, contained in the interesting report of the Joint Special Committee, submitted to the General Assembly January 22d, 1875, (printed,) and were also aided materially by the important and satisfactory statistics and suggestions presented in the able printed report of the Inspectors of the Alabama Penitentiary for the year ending September 30, 1876. Your committee also consulted with especial interest that portion of the annual message of His Excellency, Governor Houston, relating to the penitentiary, (see pages 13, 14, 15 and 16 of printed copy,) as containing not only the highest official information on the subject, but also the matured opinions of an able, thoughtful and diligent supervisor of this and all other State institutions claiming his executive care; and beg to say here, in advance of the conclusions of this report, that in their opinion the legislation recommended by His Excellency, in behalf of the penitentiary, cannot be neglected by the General Assembly without serious detriment to the present and future efficiency of the institution.

VISIT.

Your committee proceeded to visit the penitentiary on the morning of November 30th, arriving there about 2 o'clock p. m. of that day, and entered without delay upon the investigations incident to the discharge of their duties. The visit being unannounced, we had, in our opinion, an excellent opportunity for observing the operations of the system and details of management in their "every day" or customary routine. Every facility needed for a careful and thorough examination into the condition of the prison and its inmates, was promptly and willingly accorded to us by the Warden and his associates, of which we availed ourselves; and by dividing out the work, so that each had assigned to him his special field of enquiry and observation, while none the less a general observer, we soon became familiar with the work, and readily acquired the information desired.

As regards the condition and treatment of the prisoners, our inquiries and examinations were minute and very

thorough. In direct contact with the prisoners, and being alone with them, we invited the free expression of their opinions, or complaints if any, as to their treatment and the general discipline of the institution, and the information thus elicited was very gratifying, and we think quite reliable.

Without dissent, or variation as to general facts, the convicts all concurred in assuring your committee that the agents of the State having charge of these unfortunates had been uniformly kind and just in exercising authority over them, while all reasonable wants were promptly listened to and provided for.

We were convinced, from actual observation and ample proofs, of these facts:

1st. That every prisoner was adequately supplied with proper and well prepared food, as well as furnished with all needed as well as suitable clothing.

2d. That the cells, including beds and furniture, were clean and admirably adapted to the purpose, while everything about that portion of the building was as airy and comfortable as is possible in a prison lock-up.

3d. That the hospital accommodations are ample, and well devised to suit the wants and secure the comfort of the sick, while the statement gratefully volunteered by invalids of kind visitations from, and delicacies furnished by the ladies of warden's family, gave us additional assurance that this important department was admirably administered.

4th. That the sanitary regulations, including an abundant supply of pure spring water, conducted through the premises, supplying bath houses, laundry, kitchen and cattle sheds, and forced in its waste to scour at frequent intervals all sewers and vaults, claimed our especial notice and commendation.

5th. That the accounts, vouchers and records are accurately and neatly kept, and well suited to exemplify the limited industrial operations now conducted in the establishment, while the system is susceptible of adaptation to any variety of pursuits which may be required in the future exigencies of the prison.

Your committee beg also to state, in terms of unqualified approbation and approval, their appreciation of the services rendered to this institution, and through it to the State, by Col. J. G. Bass, the warden of the penitentiary. By untiring effort and great administrative skill, he has

brought order and thrift out of confusion and dilapidation, and has organized into profitable producers the squads of convict laborers who, less than two years ago, were turned over to him as expensive dependents upon State appropriations. As illustrating the success of his administration as warden, we refer to the following results, attested by your records, viz.:

The report of the Inspectors of the penitentiary for the year ending September 30th, 1876, shows a net profit, including payments on State farm debt of.....	\$ 30,882 40
While the net loss for the year ending September 30th, 1874, (the year preceding Col. Bass' administration), as stated in your reports, was.....	29,569 71

Showing a difference of.....	\$ 60,352 11
------------------------------	--------------

Between the two years, and which, after all due allowance for disasters to the crops in 1874; in reducing the income of that year, is still a fair criterion of the merits of the systems of administration prevailing then and now.

We beg permission to say, in this connection, that an officer of such approved record, should receive a salary somewhat proportioned to his services and usefulness, and that in our opinion his present salary of \$2,000 is inadequate, and should be increased at least \$500, making it \$2,500 per annum.

Your committee beg leave to commend with special approval, the efforts of the warden to supply the convicts with vegetables, and his success, so far as the limited garden area permitted, in providing this healthy and necessary food. More land is needed for this purpose, and we recommend that the sum of (\$500) five hundred dollars be appropriated to enable the warden to purchase and inclose a tract of land, containing about thirty acres, and lying contiguous to the penitentiary property, to be used as a vegetable farm, and for pasturage. Your committee examined the property above alluded to, and consider its acquisition very desirable for obvious reasons. It would certainly conduce to the health and comfort of the prisoner, and at the same time, by cheapening the cost of food, add to the revenues of the State.

Your committee visited the State, or penitentiary farm, and carefully examined it, giving special attention to the condition of the convicts employed thereon, and in charge

of Col. Thos. Williams, lessee under contract with the State. (100 convict laborers are allotted to Col. Williams under this contract for eight years, from September 30th, 1875, and the annual product, \$9,875, credited yearly as a payment on the farm property.) We found only thirty (of the 100) convicts on the State property, the remainder being employed on an upland farm belonging to the lessee, which was also visited with a view to ascertaining the condition of *all* prisoners under charge of this contractor. It is proper here to allude to an enquiry which suggested itself to us—whether this division of the force entrusted to Col. Williams meets the requirements of the law and the obligations of his contract? and commend the subject to the attention of the Inspectors of the Penitentiary. These being the only convict laborers outside of the walls of the prison whom it was our privilege to meet, we availed ourselves of the opportunity to confer with the prisoners freely. They were generally hearty and contented, and we encouraged them to persevere in their efforts to secure reports of “good conduct”—while we urged upon the contractors the necessity for a watchful and generous regard for the wants of these dependents—a suggestion deemed advisable by us, for there was an appearance of “scantiness” in rations and clothing, though the laborer appeared to be satisfied with them. Your committee were necessarily forced to consider the duties which appertain to the penitentiary inspectors, in their relations to the numerous squads of convicts located, as must needs be under the contract system, in different portions of the State, and rendering the duties of those officers difficult, engrossing and expensive. We are satisfied that two active and intelligent inspectors could perform the duties required, if the compensation was raised to five hundred dollars per annum, and by reducing the number from three to two, the actual additional expense incurred would be a mere trifle, while in our opinion the efficiency of the board would be greatly increased. More frequent and prolonged visits by the inspectors, to the places where convicts are employed, is a plain and urgent necessity not contemplated at the time of their appointment, and we hope these suggestions will claim your attention and meet your approval. As pertinent to this subject, we beg to state that of the 577 convicts now under control of the warden and inspectors, only 70 of them are within the prison walls, while 507 are employed as laborers under twelve contractors, lo-

cated in different counties of the State, and widely separated from the central prison and from each other by distance and means of access.

CONCLUSION.

Your committee are satisfied that the convicts under care of the State are well clothed and fed, and in this respect are perhaps especially favored and well conditioned, while in the penitentiary proper many facilities for mental and moral improvement are afforded. Redeemed, however, as this institution now is, from its recent degradation, and in its newly restored prosperity, claiming again the attention and interest of the State as a well ordered and thriving penitentiary, what new duty claims your consideration in behalf of its unfortunate inmates? Mark with us the ignorance which characterizes the mass of your convicts, and clouds, as with a pall, their degraded minds, shutting out the light of knowledge, and luring only to vice. Is there "no balm in Gilead" for these benighted culprits, unphysician nigh to heal their mental and moral diseases? Is it not the duty of the State as the guardian of the criminal classes confined in the State's prison, and dependent upon its magnanimity and charity, to provide alike for their physical, mental and moral wants?

One of the great objects of the penitentiary system is to *reform the vicious*, and thus restore them to society as harmless and useful citizens.

Calling attention to the duties and obligation above hinted at, and without attempting to suggest a plan for their accomplishment, we beg to close this report, with an earnest appeal in behalf of the mental, moral and religious instruction of the convict.

Mr. Herndon submitted the following report :

REPORT OF THE JOINT COMMITTEE TO EXAMINE THE CODE.

The committee to which was referred the work executed and prepared as a code of laws by Wade Keys and Fern. M. Wood, under the act of the General Assembly, approved on the 8th day of March, 1876, entitled an act to provide for the revision, digesting and promulgating of the Public Statutes of the State of a general nature, have had the same under consideration, and respectfully submit the following report :

Your committee in conjunction with the commissioners, Messrs. Keyes and Wood, have undertaken to examine the work section by section, and to compare the same with the sections of the present code and with the subsequent statutes of the State.

In the short time within which the labors of the committee have been necessarily confined, your committee made such examination as by constant and careful attention it has been able to make.

During the examination it was found that changes of phraseology and transpositions of sections had been made by the commissioners, which met the approval of the entire committee.

We have in a work of such extent, found some occasion to recommend changes in the work as submitted to us, but in every instance these changes have been made with the approval of the commissioners, without differences of opinion among members of the committee.

We do not deem it necessary to call attention to any of the matters embraced in the work about which there might be differences of opinion except to the fact that section 2877 of the Revised Code is not carried into the new code, for reasons which are given in a foot note and which are familiar to the legal profession.

The committee agreed with the commissioners that the section ought not to be carried into the code as not being a part of the law of the land: the precise question, however, has not been settled by our Supreme Court, and the attention of the General Assembly is therefore called to it.

The plan of the work is in accordance with the requirements of the act authorizing it, to-wit, the act of March

8th, 1876, and the members of the committee agree that great industry, fidelity and skill have been displayed by the commissioners in the execution of the work.

Your committee deem it appropriate to state that a proper printing and publication of the code if adopted becomes a subject of much importance, and in the opinion of the committee the work can be best accomplished by the superintendence of the commissioners who have constructed the system, and your committee recommend with the adoption of the code the continuance of the commissioners for that purpose.

All of which is respectfully submitted.

January 18, 1876.

Article 3 was adopted.

Pending the consideration of article 4, Mr. Jolly made the following report:

To the President of the Senate and Speaker of the House of Representatives:

The joint committee to whom was referred the joint resolution to report "on what day the present session of the General Assembly must terminate by constitutional limitation," have had the same under consideration, and submit the following as the result of their deliberations.

Section 5, of article 4, of the Constitution, provides that "the General Assembly shall meet biennially . . . and shall not remain in session longer than sixty days at the first session held under this constitution, nor longer than fifty days at any one subsequent session."

The last General Assembly settled definitely that this is the first session under the Constitution (Acts 1876, p. 120); and this division has been acquiesced in by the other departments of the State Government, and has been acted on by the present General Assembly.

The present General Assembly cannot, therefore, remain in session longer than sixty days; that is, it can remain in session sixty days.

The time commenced to run on the 14th day of November, 1876. The Supreme Court has held that the session commencing on that day will be but one session until final adjournment, notwithstanding the recess, (*ex-parte* Mathews 52 Ala. 42.) If, then, the sixty days are computed by including each day, beginning with the 14th day of November, 1876, the constitutional term would have expired on the 12th of January, 1877, and the General Assembly would now be sitting without constitutional authority, and its acts since the 12th day of January would be null and void.

The General Assembly, however, has decided that it had

the power to take the recess, and this in accordance with the principles of the decisions of the Supreme court, and in so deciding have determined the true construction of 5th section of article 4 to be, that the 60 days contemplated by that section were not to be consecutive, and that those days only should be counted in which the General Assembly should be engaged in business.

The supreme court of Alabama have so expressly decided, and have also held that Sundays and other legal holidays shall not be included in the count. The court say, in speaking of the clause in the constitution of 1868, fixing the term of the sessions of the board of education, which is substantially the same as the clause of the constitution of 1875 now under consideration:

"The constitution manifestly intends to give the board of education at least twenty business days, but it does not require that they should follow in successive order."

This remark of the court applies also to the General Assembly, and the committee are therefore of opinion that in computing the 60 days, the days for which the General Assembly took recess, Sundays, Thanksgiving Day, and Mardi Gras, it being made a legal holiday by law, should not be counted.

Omitting these days from the computation the present session of the General Assembly will terminate by constitutional limitation on the 16th day of February, 1877.

Mr. Hansburger submitted the following report:

Which was received and ordered to be laid on the table.

Mr Speaker:

The Joint Committee appointed and instructed by resolution of the General Assembly to inquire into the propriety of reducing the fees of the several county officers of this State, and the practicability of consolidating any of the same, have had the matter under consideration and instruct me to report:

A bill to be entitled an act "to amend section 3515 of the Revised Code;"

(Which bill has been introduced in the Senate):

And recommend its passage.

The reductions herein made, together with those heretofore recommended in a bill reported to the Senate, reducing the fees of probate judges, are all which, in the opinion of the majority of your committee, should be reduced by a general law at this time. In some counties we find the income of other officers is sufficient to warrant a reduction of their fees, while in other counties the fees of the same officers are not sufficient for their comfortable support. Again, in some counties we find a consolidation of certain offices desirable, while in others it would be altogether inexpedient. This difference grows out of the

great inequality in the wealth and population of the various counties in the State, and renders any further effort at *Reform and Retrenchment* impracticable unless it be by special legislation for particular counties.

Having considered and acted upon all matters referred to them, your committee ask to be discharged.

Respectfully submitted,

GEO. P. HARRISON, JR.

Chairman of the Senate Committee.

J. S. HANSBURGER,

Chairman of the House Committee.

By leave Mr. Hansburger offered the following joint resolution:

Resolved by the House, the Senate concurring, That the General Assembly adjourn, sine die, on Monday, February 5th, 1877.

Pending its consideration, Mr. Jolly submitted the following report:

Which was received and ordered to lie on the table.

To the President of the Senate and Speaker of the House of Representatives:

The joint committee, to whom was referred the joint resolution "that this General Assembly shall adjourn on Saturday, January 27th, at 12 M., *sine die*," have had the same under consideration, and have instructed us to submit the following as the result of their deliberations:

The committee have just passed upon and submitted their report as to the Constitutional limit of the present General Assembly, and have agreed upon the 16th day of February, 1877, as the day upon which adjournment is fixed by the Constitution.

The question as to the day on which the General Assembly *should* adjourn is one of *propriety* simply, and should be passed upon by the Senate and House of Representatives. What the public interests require in this regard is, in the judgment of the committee, a matter which can be more properly and satisfactorily determined by the General Assembly.

Your committee therefore beg leave to refer the matter of the day of adjournment back to the Senate and House of Representatives for their action.

R. C. TORREY,

Chairman of the Senate Committee.

JNO. J. JOLLY,

Chairman of the House Committee.

The House resumed the consideration of the joint resolution.

On motion of Mr. Manasco, of Walker, its further consideration was postponed and made the special order for Wednesday next, 1 P. M.

By leave Mr. Denson offered the following resolution:

Resolved, That on and after the first day of February, 1877, the call of the counties shall be suspended and no new business shall be introduced after that time.

Mr. Hernilon moved to amend by striking out "1st" and inserting "fifth."

Adopted.

Mr. McKleroy moved to lay the resolution on the table.

Lost.

Yeas 20, nays 67.

Yeas—Messrs. Speaker, Allen, Baxter, Beard, Booker, Butler, Crump, Espy, Gray, Harris, Kennedy, Kirkland, Lewis, McAdory, McKleroy, Prowell, Stevens, of Coffee, Stephens, of Perry, Taylor and Titecomb—20.

MONTGOMERY, Feb. 1st, 1877.

To the Honorable House of Representatives of Alabama:

Mr. Speaker:

His undersigned dissents from the views of the majority of the special committee, expressed in their report in favor of the passage of the bill entitled, "An act to regulate the practice of medicine in Alabama," and begs to present this as the minority report of that committee.

The reasons for opposing the passage of the bill under consideration are many, and the objections to it of serious and paramount importance, some of which are briefly slated thus:

Its provisions tend to vex and harass the people of this State, in restricting their right of private judgment and liberty of action.

Its passage would create, by law, a grand inquisitorial association, clothed with immense powers and endowed with exclusive privileges, totally incompatible with the genius of American freedom and the principles of the constitution of Alabama.

It arrogates superiority for one branch of the medical profession by designating all others as *irregular*.

It claims in effect the passage and summary enforcement of "sumptuary" laws for the aggrandizement of one branch of the medical profession to the detriment of all others and in opposition to the interests and rights of the people.

It, in effect, raises a tribunal with power to enforce laws diverse from the *published* statutes of the State, whereby punishments are awarded and inflicted without right of trial by jury or appeal to the courts for redress.

For these, and many equally important reasons, he prays that the bill shall not pass.

OLIVER S. BEERS.

Mr. Harrington, from the committee on finance, reported a substitute for the bill—

While we admit that there is important unfinished business which should be disposed of, and which cannot be completed by the 5th day of February, and that it would be eminently wise to continue the session beyond that day if there were nothing in the organic law to forbid it; we are of opinion that the Constitution of Alabama limits the session to sixty sessional days---that Sundays and holidays are included in sessional days---and that the sixty days will expire on Monday, the 5th day of February. We are, therefore, of opinion that it will not be expedient to continue the session beyond that time.

On motion of Mr. Herndon, the further consideration of the report was postponed till to-morrow morning immediately after the first special order is disposed of.

Mr. McKleroy submitted the following report, and it was ordered to be spread upon the journal:

Mr. Speaker:

Having voted against the bill to be entitled, "an act to organize and regulate a system of public instruction for the State of Alabama," which passed the House on the 26th ult., I respectfully submit the following reasons for my dissent to the same, and ask that they be entered on the journal:

The bill as it passed, was, except as to the first three articles, a substitute for the original bill which was introduced with the above named title, and, is so entirely different from said original bill it seems to me that even the caption

of that bill is inappropriate to it. The main idea of the substitute seems to be how best to *distribute* the money which by the constitution and laws is to be appropriated for public education, rather than how best to organize and regulate a system of free public schools.

While this bill retains the office of county superintendent nominally, it dispenses with nearly all the important duties which should devolve upon such an officer, and which are of infinitely more importance than the office itself. It gives the county superintendent no supervision of the schools, nor of their establishment, nor of contracts with teachers, nor over the actions of the trustees. Neither is he required to organize teachers' institutes, to examine and license teachers, nor to visit schools. Indeed the very name without these important duties, to say nothing of others of scarcely less import, which are also dispensed with, is a delusion, and the office itself with the few and comparatively unimportant duties attached to it is superfluous, and a needless expense. These few duties, which are purely ministerial could as well be performed by some other county official, and with less expense than is provided for in the bill.

Another severe blow which is to be dealt to the educational interests of the State by this bill is the provision that payments to teachers shall be made only once in each year; and then they are to receive no fixed compensation, but only such part of the fund apportioned to the townships in which they taught as shall be proportioned to the number of pupils, and length of time taught by each. It is doubtful whether competent teachers can be employed on such indefinite terms, with long delayed payments, save in exceptional cases. I fear the result will be that in many townships there will be no schools for either race, while in many more there will be none for the colored race. To no one cause is the improvement in the school system during the past two years more due, than to the feature of prompt monthly payments to teachers which has prevailed during that period. Many more schools can be established, and better teachers employed for lower salaries when they are to be paid promptly each month a definite amount, than when they shall be compelled to wait until the end of the year, and take their chances of thus receiving some indefinite amount.

This method of *distribution* of the school money proposed by this bill may do very well as a means of subsi-

dizing private schools in certain localities where the people are able to maintain the private schools without such assistance, but it will operate as a denial of educational facilities to that much larger class of poorer people who are not able to sustain private schools, and who are most in need of the free public schools.

I emphasize the word "distribution" above, for it will be remembered that in the substitute this word is used where "disbursed" is used in the original bill. This, together with the significant fact that the word "free," where it occurred in connection with public schools, was stricken out of even that portion of the original bill which was adopted, and that it was altogether omitted in the substitute, independently of the other considerations above mentioned, is persuasive to show that it is not even the purpose of the substitute to establish and regulate an efficient system of free public instruction in this State.

But, whether I mistake the purpose of the bill or not, I cannot but believe that its effects, if it should become a law, will be disastrous to the educational system, and detrimental to the welfare of the people, and the prosperity of the State.

It will be such a retrogression as will place our State, which now has a better educational system than many; and a larger fund than some of the States, behind them all, and even behind all the organized territories but one, in this important interest. This I am satisfied is not in accordance with the spirit of our new constitution, nor the genius of our people. Our mineral wealth, our fertile soils and diversified products, and our genial climate, when combined with general intelligence among the people, will afford every element of State wealth and happiness. If we would utilize these elements and reap the benefits, we must keep pace with the spirit of the age in the matter of public education. It is mistaken economy which would suffer us to go backward now. Ignorance, and its offspring, indolence, vice and crime, are too costly to be encouraged.

I object to the bill also because it fails to provide any efficient means for the collection, and disbursement of the poll tax; and for other matters of detail which I deem it unnecessary to record here.

While according to every member of the General Assembly who differed with me in this measure the same impulses of patriotic purpose, and not arrogating superior wisdom on the subject, but honestly believing the baneful

results above indicated will naturally follow the enactment of the bill into a law, I most respectfully submit this as my protest against the same.

JNO. M. MCKLERoy.

I concur in the above protest,

B. M. STEVENS.

We the undersigned, members of the committee on education, hereby express our entire concurrence in the above protest by the chairman of said committee

H. TAYLOR,

F. DILLON.

W. Y. TITCOMB.

HOUSE OF REPRESENTATIVES,
February 8, 1877.

Mr. Speaker:

I respectfully ask leave to spread on the journal of this House my solemn protest against the passage of the bill to change the boundary lines between the counties of Walker, Blount and Jefferson, on the following grounds:

1st. Said bill is unjust in taking from Walker county a large portion of her tax-paying citizenship, leaving the remnant of that county burdened with debt contracted for the benefit of the people detached by said bill.

2d. It is unwise, because it deprives Walker county of a large number of Democratic voters, leaving that county hereafter an easy prey to the evils of Radicalism.

3d. It is in direct conflict with the wishes of a large majority of the people of Walker county.

4th. It belongs to that species of special local legislation, upon which the Constitution of 1875 indignantly frowns, and which has been productive in the past of nothing but discontent and contention.

JOHN MANASCO,
Representative from Walker county.

The House resumed the consideration of the Senate bill—

section mentioned shall cease, and thereafter forever remain discharged and wholly extinguished."

It affords me much pleasure to report to the General Assembly that I have, as Governor of the State of Alabama, this day made and delivered to the trustees who were appointed in pursuance of the said act, and for the purposes therein stated and set forth, the deed of conveyance as the said act required of me as Governor of said State. Upon the execution and delivery of the conveyance as provided for in said law, *all liability of the State upon said bonds and coupons has ceased and will forever remain discharged and wholly extinguished.*

Mr. Speaker Clements said :

Gentlemen :

By the adoption of the joint resolution of the two houses, of the General Assembly, the hour has arrived which must terminate our official relation to the country and to one another. In accordance with the usages of this occasion, and my feelings require it, that before announcing the final adjournment of the House I should say something of the duties performed—the relations sustained—a word of acknowledgement and of farewell.

We have been associated together here, as members of the General Assembly, legislating in the interest of our beloved State, during a most important and critical era in the history of the whole country.

The important events that have been transpiring since the 7th of November last—the intense political excitement

that has pervaded the entire country over the presidential election—the disturbed condition of every industrial and commercial interest of the country, and the threatening condition of political affairs, have naturally tended to excite our minds, and in some degree, had its effect upon legislation. But notwithstanding all these things, you have steadily gone forward in the faithful discharge of all your duties, and within the limited time allotted to this session, accomplished all the legislation that was deemed necessary for the good of the State. You have enacted many wholesome laws, and made many important changes, that it is hoped will redound to the good of the people.

It is to be hoped that peace and prosperity will reign throughout the entire State, and that the political waters will soon be calmed, and that truth, justice and purity of good government will be restored, and prevail throughout the whole nation.

There is no doubt in the minds of honest, fair-minded and intelligent men, that Tilden and Hendricks have been elected President and Vice-President of the United States; and all honorable and fair means, within the constitution, should be used to secure their inauguration. The liberty and safety of the people demand it. The voice of the people expressed at the ballot box should not be stifled; nor should their right to select their Chief Magistrate be arbitrated beyond the pale of the constitution. The liberty of the American people should not be overthrown or endangered. The integrity of the Union and the local self-government of these States should be preserved and the peace of the country maintained. The Democratic party demand these things—we deprecate war—we want peace.

Our work as representatives of the people, in the important trust of legislation, is now ended, and we shall at once return to our homes and to our constituency, content that our labors shall abide the test of their judgment and the experiment of time.

I beg you gentlemen, to accept my cordial thanks for your generous appreciation of my services, and for the manner in which it has been expressed. The kind sentiment expressed in the resolution just adopted, awakens in my heart the most pleasing thoughts and emotions. I shall treasure them in my memory as a precious recollection of our association as members of this General Assembly.

As your presiding officer, I am greatly indebted to you for your forbearance and generous aid in the performance

of my many and responsible duties in presiding over your deliberation. I have conscientiously endeavored to keep the pledge I made when I assumed the duties of this office—that I would to the best of my ability discharge them, faithfully, impartially and without prejudice. I have faithfully endeavored to do justice to all in my rulings; and if, at any time, I have failed to recognize the rights or done injustice to any gentleman on the floor, I assure you it was not intentional, and the only reparation in my power I now make, is in saying I regret it.

In acknowledging my obligations I cannot refrain from mentioning with gratitude those gentlemen whom I have so often called to the chair, and who so frequently and generously aided me in its labors. To these gentlemen I am greatly indebted, and I tender them my sincere thanks. I cannot forget also, to mention the able and efficient Clerk of the House and his assistant, who, by their ability, promptness and faithfulness to duty, and uniform courtesy, greatly aided the Speaker, and won the favor of the House.

My associations with all of you, gentlemen, during the labors of this session, have been those of a most agreeable and pleasant character, and during our intercourse here a friendship has grown up between us that cannot soon be forgotten. I trust and hope that many of you who now constitute this House will return again as members of the next Legislature. It is certain, however, that we will not all meet again. It is this thought that throws a shadow of sadness over this occasion. But the attachments that we have here formed, and the pleasant associations connected with our official labors here, I trust will be remembered by us and retained among the treasures of the heart. And if, perchance, any one of you, in after years, should recall my name, or think of any incident that may have occurred with which my name may be connected, I trust you will remember it with emotions of kindness, pleasure and friendship.

And now, tendering you again my grateful acknowledgments for your many favors, I heartily wish each of you, gentlemen, well, and you carry with you my sincere desire for your future success, prosperity and happiness. I now proceed to the performance of the only duty which remains to me, by announcing, as I now do, that the House of

Representatives of the State of Alabama stands adjourned
sine die.

N. N. CLEMENTS,
Speaker of the House of Representatives.

Attest:

ELLIS PHELAN,
Clerk.
